Education

SRM Institute of Science and Technology	2023 – 2026
Bachelor of Computer Applications (BCA)	CGPA: 9.72
University College of Engineering, JNTUK Kakinada	2023 – 2027
Bachelor of Technology – Civil Engineering	CGPA: 7.902

Skills

Languages: Python, R, SQL, C

Libraries: Pandas, NumPy, Scikit-learn, Seaborn, Matplotlib

Tools: Power BI, Tableau, Excel, Git, Jupyter Notebook, VS Code

Data Skills: Data Cleaning, Exploratory Data Analysis (EDA), Machine Learning, Data Visualization

Civil Skills: AutoCAD

Experience

Data Analyst Intern – Elevate Labs (Remote)	Jun 2025 – Present
- Developed 4+ Power BI dashboards to monitor sales performance and revenue trends. - Performed exploratory data analysis on datasets containing 10,000+ records to uncover actionable insights. - Improved marketing campaign efficiency by 12% through data-driven performance analysis. - Collaborated with analytics teams to align reporting solutions with business objectives.	
Data Science Intern – Pinnacle (Remote)	Sep 2024 – Nov 2024
- Engineered a housing price prediction model achieving 92% R^2 accuracy. - Processed and cleaned datasets containing 1000+ records using Python and Pandas. - Maintained structured project repositories and documentation using GitHub.	

Projects

House Price Prediction

- Implemented regression models using Python and Scikit-learn to estimate housing prices.
- Conducted feature engineering on 1500+ property records to enhance prediction accuracy.
- Achieved a model performance of 92% R^2 after hyperparameter optimization.

Heart Disease Prediction

- Designed classification models using Logistic Regression and Random Forest algorithms.
- Analyzed 900+ healthcare records to identify critical disease risk factors.
- Achieved 85% prediction accuracy through model training and evaluation.

Sales Dashboard – Power BI

- Designed interactive dashboards visualizing sales performance and revenue metrics.
- Implemented KPIs and filters enabling faster decision-making.
- Reduced manual reporting effort by 30%.

HR Data Analysis

- Analyzed 1200+ employee records to identify workforce attrition patterns.
- Discovered key factors influencing employee retention using exploratory analysis.
- Presented insights through dashboards and visual reports.

Certifications

IBM Data Analysis Using Python (Coursera)
IBM Python for Data Science
Power BI Business Intelligence
Deloitte Data Analytics Job Simulation

Achievements

1st Prize – Essay Writing Contest (FIPI Student Chapter)
2nd Prize – Art Smart Contest Season 1, 2025
